

Plastics Industry Show 2010

The 11th international exhibition of raw materials, equipment, and technology for the plastics industry, **Plastics Industry Show 2010**, will open its doors from **27 – 30 September 2010** in **Moscow**, Russia. The scope of the exhibition includes equipment and machinery for plastic processing, raw materials, additives, moulds and dies, testing equipment, recycling systems, finished products, and consulting and marketing services. According to the organisers **P&I JSC "Maxima"** and **"Expocentre" JSC**, last year's show attracted 150 exhibitors from 12 countries and about 17,000 visitors from 20 countries.
