

Rubber Machinery & Equipment Zone at Chinaplas 2012

As the relaunch of Rubber Machinery & Equipment Zone at Chinaplas 2011 received overwhelming response, Adsale will continue this zone in 2012.

It is expected the size of the zone will be doubled in 2012. Numerous exhibitors have confirmed their participation, such as Tung Yu, Desma, Yang Ming, Double Elephant, Hengwei, Ningbo Chap, Shanghai Deren, Yuyao Huacheng, etc. Exhibits at the zone will include rubber machinery and processing equipment, testing equipment, die & mould for products like rubber conveyor belts, rubber hoses, medical rubber products, daily rubber products, rubber sealing products, automotive rubber products, etc.

A Rubber Suppliers Guide will be tailor-made for visitors to facilitate their search.
The Rubber Suppliers Guide is published by Adsale and Dr. Gupta Publishing.

Following the excellent results gained from the **Bio-plastics & Degradable Plastics Zone** in 2011 in Guangzhou, Adsale said that it will continue to cradle this zone in the 26th edition of Chinaplas. The **4th International Conference on Bioplastics** will be held concurrently with the fair.

Another highlight of the show is the return of the **Korean Pavilion**, supported by the Korea Petrochemical Industry Association. In the first half of 2011, Korea has been one of the Top 10 importing countries for plastics machinery for China. Located at Hall N4 of the fairground, the pavilion can be easily accessed by going through Entrance Hall 3.

Other pavilions at Chinaplas 2012:

- Extrusion Machinery Zone,
- Injection Molding Machinery Zone,
- Chemicals & Raw Materials Zone,
- Plastic Packaging & Blow Molding Machinery Zone,
- Die & Mould Zone,
- Auxiliary & Testing Equipment Zone,
- Other Processing Machinery Zone,
- Bioplastics Zone,
- Semi-finished Products Zone and
- Chinese Export Machinery & Materials Hall
