
BMS cooperates with Mito polimeri

Bayer MaterialScience has a new distributor in Italy. Mito polimeri s.r.l. has assumed the distribution activities previously performed by Mercatali s.r.l. (since 1973) and Mida s.r.l. (since 1978). The sales partnership is focused primarily on Makrolon PC, Apec PC-HT, Bayblend PC/ABS, Makroblend PC/PBT, and Desmopan and Texin TPUs.

BMS said that the products will continue to be distributed directly in Italy, and existing distribution partnerships will remain intact.
