

2nd Bioplastics Business Breakfast @ K 2013

On three days during K 2013, **bioplastics Magazine** will host a **Bioplastics Business Breakfast**. According to the organiser, at these mini-symposia – succinct and to the point – the delegates will have the chance to listen to, and discuss, high quality presentations, and to benefit from a unique networking opportunity. The Bioplastics Business Breakfast meetings, where tea, coffee and croissants will be served, are being held at the **CCD Ost, Messe Düsseldorf**, Germany, right on the fairgrounds. Take advantage of this special opportunity, from 8 am – 12:30 am, to pick up detailed information before the show doors open (the fair opens at 10 am).

Preliminary programme:

17 October 2013: Bioplastics in Packaging

8:00-8:10	Welcome remarks	bioplastics MAGAZINE, Michael Thielen
8:10-8:25	Bioplastics – combining performance and sustainability in the packaging segment	European Bioplastics, Francois de Bie
8:25-8:45	Biobased materials for packing food products	Ghent University, Nanou Peelman
8:45-9:05	Facts and data on Bioplastics	Institute for Bioplastics and Biocomposites, Hans-Josef Endres
9:05-9:25	The New Development of Mater-Bi for packaging application	Novamont, Alberto Castellanza
9:25-9:35	Q&A	
9:35-9:55	Bioplastic Films Innovations by Renewable Resourcing	Huhtamaki, Larissa Zirkel
9:55-10:15	Development of an active multilayer packaging based on PLA	AIMPLAS, Nuria López
10:15-10:35	Biodegradable Polymers in Foodservice in closed systems	BASF, Lars Liebscher
10:35-10:45	Q&A	
10:45-11:05	Coffee & Networking	
11:05-11:25	Reinvent and renew with biodegradable PBS	Reverdia, Jo Kockelkoren
11:25-11:45	Engineered Sustainability – Packaging made from Biobased and Biodegradable Plastics	FKuR, Patrick Zimmermann
11:45-12:05	Sustainable packaging with sugar cane based polyolefins	Braskem, Marco Jansen
12:05-12:25	Influence of BIOPLAST-Material and conventional non-PE Plastics on the mechanical Properties of recycled PE-Film	Biotec, Christoph Heß
12:25-12:30	Q&A	

18 October 2013: PLA, an innovative Bioplastic

8:00-8:10	Welcome remarks	bioplastics MAGAZINE, Michael Thielen
8:10-8:25	PLA – the multitasking mass commodity plastic to be	European Bioplastics, Hasso von Pogrell
8:25-8:45	From Lactic Acid Via Polylactic Acid To Textile Applications	Uhde Inventa-Fischer, Rainer Hagen
8:45-9:05	Partnership in PLA innovation - some examples	Corbion Purac, Francois de Bie
9:05-9:25	Advances in High Performance PLA Production	Sulzer Chemtech, Emmanuel Rapendy
9:25-9:35	Q&A	
9:35-9:55	PLA, an innovative Bioplastic	Natureworks, Steve Davies
9:55-10:15	Formulation proficiency helps biopolymers meet the demands of durable applications	PolyOne, Marcel Datree
10:15-10:35	Biaxially oriented PLA films: some examples	Taghleef Industries, Paolo Serafin
10:35-10:45	Q&A	
10:45-11:05	Coffee & Networking	
11:05-11:25	Injection molding of PLA	IfBB, Andrea Siebert-Raths
11:25-11:45	Dyeing staple fibres	Grafe, Carlos Caro
11:45-12:05	InnoREX: Metal-free polymerisation of PLA using alternative energies for reactive extrusion	Fraunhofer ICT, Björn Bergmann
12:05-12:25	Recycling of PLA	Michigan State Univ., Ramani Narayan
12:25-12:30	Q&A	

19 October 2013: Bioplastics in durable applications

8:00-8:10	Welcome remarks	bioplastics MAGAZINE, Michael Thielen
8:10-8:25	Extending bioplastics' benefits in durable applications	European Bioplastics EuBP, Constance Ißbrücker,
8:25-8:45	High Performance Bio-based Engineering Polymers for Durable Applications	DuPont, Thomas Werner
8:45-9:05	Biobased Polyurethanes	Michigan State Univ., Ramani Narayan
9:05-9:25	Bioplastics in durable applications	Natureworks, Frank Diodato
9:25-9:35	Q&A	
9:35-9:55	Durabio	Mitsubishi Chemical, Dietrich Albrecht
9:55-10:15	MouldPulp	Fraunhofer UMSICHT, Thomas Wodke
10:15-10:35	Eco-friendly starch-based resins for durable applications	Roquette, Jean-Luc Monnet
10:35-10:45	Q&A	
10:45-11:05	Coffee & Networking	

11:05-11:25	Biobased Polyamides	Evonik, Benjamin Brehmer
11:25-11:45	Toray's performance bioplastics	Toray, Makoto Kobayashi
11:45-12:05	Special Injection Molding Techniques opens up further Applications for Bioplastics	FKuR, Christoph Lohr
12:05-12:25	Food or non-Food - Which agricultural feedstocks are best for industrial uses	nova Institute, Michael Carus
12:25-12:30	Q&A	

(subject to changes and updates)

Datum und Ansprechpartner

17.10.2013 - 19.10.2013
