

RubberTech China 2011

On 22 – 24 November 2011, the trade fair for the Asian tyre market Reifen China will take place in Shanghai, China. Together with the China United Rubber Corporation (CURC), Messe Essen will stage the event for the fifth time. According to the organisers, the fair has become established in the Asian market as a platform for products and services for everything to do with tyres, wheels and garages. In 2011, the range on offer at Reifen China will be extended especially by the fields of garage equipment and wheel rims. The trade show runs parallel to the 11th RubberTech China, which offers a portfolio that is complimentary to the products and services offered at Reifen China. RubberTech China is organised by CURC and showcases machinery for rubber processing, analysis equipment for rubber products, rubber raw materials, and chemicals as well as non-tyre rubber products.
