

Tire Technology Expo 2014

The **Tire Technology Expo** will open its doors from **11 – 13 February 2014** in **Cologne**, Germany. According to the organiser **Ukip Media & Events Ltd.**, the event has grown in strength and stature every year since it was started in Europe 14 years ago and today is a leading tyre design and tyre manufacturing exhibition and conference. More than 200 exhibitors are expected at the 2014 event. The exhibition offers a technology showcase covering raw materials and equipment through the complete spectrum of the tyre manufacturing process as well as services. In addition to the main **Tire Technology Conference**, in total six short courses will be offered: Commencing one day before the expo and conference, the four-day “40th Tire Mechanics Short Course” of the University of Akron, the two-day “Prediction of Rubber Behaviour for Engineering Design” course, the two-day “Tire Mathematical Modelling Course” of the Coventry University, the two-day “Basic Rubber Compounding Course”, the one-day “Tire Regulations Short Course”, as well as the new three-day “Intelligent Vehicle-and-Tire Systems for Energy Efficiency & Safety” course will be held. Furthermore, the annual “Tire Technology International Awards” will be presented.
