

## UTECH Europe 2012: Evonik Industries

**Evonik Industries' Comfort and Insulation business line has more than 50 years experience in polyurethane chemistry.**

“We focus on you“ is the company’s motto for UTECH, where it will highlight new Tegostab surfactants for PU an PIR rigid panel systems, flexible polyether and polyester slabstock foam, and low VOC moulded foams for automotive seating. In addition, the company will focus Kosmos 27, a new tin catalyst for polyether polyurethane foams as 2-ethylhexanoic acid-free alternative to the well-known product Kosmos 29. The full portfolio of amine and tin catalysts as well as the Tegocolor pigments and Ortegol performance additives will also be presented. Furthermore, the company will point out the range of low VOC Gorapur release agents for the automotive and footwear industries.
