
Coim: Aliphatic and aromatic polyester polyols

The independent, Italian chemical company Coim S.p.A with manufacturing sites in Europe, USA and Asia will be presenting its range of aliphatic and aromatic polyester polyols.

The company's range of **Diexter** aliphatic polyester polyols, with both standard glycol adipates and speciality bespoke grades, as well as its full line of conventional and low free monomer prepolymers will be presented. The **Isoexter** aromatic polyester polyol products for rigid foam applications such as boardstock, pour-in-place and rigid bunstock will also be on show.
