
SPFA announces keynote speakers

Joseph Lstiburek and William K. Irwin, Jr. will head up this year's major spray foam event as keynote speakers.

[image_0] **Joseph Lstiburek** is a principal of **Building Science Corporation** and is the go-to resource for anyone looking for straight information on building science.

“Dr. Joe,” as he is known throughout the industry, has substantial industry experience working with SPF, as well as personal experience having used SPF for a substantial deep energy retrofit project on his home in Massachusetts.

You aren't going to get more practical, straight, useful, experienced, and scientifically-grounded advice on SPF and building science anywhere else than from Dr. Joe.

[image_1_right] **William K. Irwin, Jr.**, Executive Director of **Carpenters International Training Fund**, has been a union carpenter for more than 40 years, starting as an apprentice, becoming a journeyworker, foreman, holding various offices in his local union, a delegate to the New England Regional Council of Carpenters, serving as training director for five carpenter locals, director of the New England Carpenters Training Fund and rising to his current position.

The Carpenters International Training Fund supports a brand new training centre in Las Vegas, providing extensive training and certifications for union members in areas covering more than eight different trades, soon to include SPF.

The Sprayfoam Convention and Expo 2014, organised by the **Spray Polyurethane Foam Alliance (SPFA)** from 26 – 29 January 2014 in Palm Springs, CA, USA, will deliver critical information to a growing and dynamic industry. With each passing year comes new technology, research, equipment, and best practices. Attending the convention is the single best way to be prepared for the year ahead. The keynote presenters at the 2014 Convention will provide you with unforgettable insight and motivation to run your business. For more information on these speakers and other 22 sessions and details of exhibitors go to www.sprayfoam.org.
